

Contents Net

"Contents Net" is a web based tool that enables users to quickly and easily calculate the correct replacement cost of their valuable home contents.

Every year thousands of homes are damaged by fire, storms and other natural disasters. Most of these people are underinsured, which inevitably leads to disappointment, financial hardship and frustration. Then as the true picture emerges this often gives way to dissatisfaction and anger.

When a policyholder is underinsured, no one wins! The client loses out because they don't receive total replacement on their valuable assets.

The insurance company misses out because the client feels they have been let down at crunch time. The insurer also misses out on collecting the correct premium that results from a client being underinsured.

"Contents Net" works by asking the user a number of simple questions such as what rooms they have in their home, the number of people and a couple of other simple questions. Based on our expert research the application then builds a list of typical items, together with a replacement price estimate and provides the user with a comprehensive report.

"Contents Net" can be linked to any insurance or financial services web site to provide the customers of that organisation with a simple yet powerful tool to calculate their home contents replacement cost. Alternatively Contents Net can be made available on a subscription or single user pay as you go basis.

The licensed home contents information available covers some 1500 items priced up into 3 statistical grades, from average thru quality to prestige. There are a total of 32 separate home contents categories covering all of the

items you would normally expect to find in a home, such as:-

- Appliances
- Audio Visual Equipment
- Bedding/Linen
- Books/CD's/DVD's
- Clothing
- Computer/Communications
- Cosmetics/Toiletries
- Exercise
- Floor Furnishings
- Furniture
- Jewellery (costume)
- Kitchenware
- Office Equipment
- Tools
- Toys

Contents Net provides organizations and users alike with a service that will give them peace of mind, knowing that should the unthinkable ever occur, their family home and treasured possessions are insured for their true replacement cost.
